Attention: Technical Support Unit

Subject: **TECHNICAL MONITORING REPORT: NPDES PERMIT NO.  
CA0001414 COMPLIANCE FILE NO. 5999 - 4TH QUARTER 1997**

Gentlemen:

Douglas Products Division (DPD), formerly Douglas Aircraft Company, herewith submits the technical report on self monitoring work performed in accordance with the specifications contained in Monitoring and Reporting Number 5999. The enclosures summarize the fourth quarter 1997 reporting period for the Torrance, California facility.

All analyses were conducted by Truesdail Laboratories, Inc. of Tustin, California, in accordance with the current EPA guideline procedures as specified in the Monitoring Program.

No samples were collected this quarter because of no flow conditions.

This will be the last quarterly technical monitoring report for this facility. The NPDES permit has been rescinded, due to no further waste discharge from the facility. A final annual report will be submitted by March 1, 1998.

Please contact the undersigned at (562) 593-3902 if you have any questions regarding this submittal.

"I declare under penalty of perjury that the foregoing is true and correct", executed on the 9th of January 1998.

Sincerely,

A handwritten signature in cursive script that reads 'Scott Lattimore'.

Scott Lattimore  
Environmental Engineer  
Safety, Health, and Environmental Affairs
